

## **Non-UK Customers**

Non-UK customers may fax or email a purchase order. We will fax a pro-forma invoice for the goods and carriage when the goods are ready for dispatch and we will accept a credit transfer to our bank whose details are on the bottom of the invoice, or payment by credit card. **Do not email credit card details**, because these can be intercepted by other people. Fax or phone is OK.

Carriage to customers who are not in UK is charged at cost. Many customers wish to estimate the cost of carriage. This can be done by working out the weight of the consignment using the weights given below (adding a small amount for packaging) and then using the carriage cost guide printed below that. Customers in USA, Canada and maybe Mexico who supply us details of their Fedex Account may prefer to be sent goods using Fedex "Bill carriage to recipient". This service is unusual because there is no extra charge for the service, and it allows these customers to get carriage at continental American rates which seem to be much less. It may be that this service is of use in other countries as well.
